Policy to be reviewed by Sport Integrity Australia September - December 2022

SUMMARY

- » There is an increasing concern about the improper use of drugs and medicine in sport.
- » TFA is committed to the health, safety, and wellbeing of Relevant Persons and to providing a safe and clean environment for Participants in Touch Football, including by ensuring that science and medicine services are provided to athletes by appropriately qualified and supervised staff that are subject to the National Integrity Framework.
- » Illegal Drugs represent a widespread community problem and can pose a serious health issue for individuals. TFA is aware of the availability and the prevalence of use of Illegal Drugs and seeks to deter Relevant Persons from the use of such substances.
- » The use of Illegal Drugs has a significant impact on the culture of sporting environments and the performance of individuals. Such use also brings Participants, TFA and Touch Football into disrepute and does not provide a positive example for members of the community that may view our athletes as role models.
- » The purpose of this Policy is to provide a framework to:
 - address and deter any unlawful distribution and use of Illegal Drugs in connection with Touch Football;
 - aim to reduce the harm caused by Illegal Drugs to Relevant Persons and the broader community;
 - ensure that appropriately qualified personnel are appointed to provide science and medicine services to athletes within Touch Football; and
 - ensure that injections are only administered to athletes within Touch Football as part of appropriate medical treatment.
- » The Australia Institute of Sport (AIS) leads the sport sector in best practice for Sport Science and Sport Medicine and works collaboratively with Sport Integrity Australia in relation to compliance with policy and standards relating to Sport Science and Sport Medicine.

1. DEFINITIONS

Defined terms not otherwise defined in this Policy have the meaning given to them in the National Integrity Framework. In this Policy, the following words have the corresponding meaning:

AIS Sports Science Sports Medicine Practitioner Minimum Standards mean the mandatory minimum standards for sports science and sports medicine staff and contractors engaged to deliver services in those disciplines as published and amended by the AIS from time to time and available [here](#).

Chief Medical Officer is the Medical Practitioner appointed by TFA to advise and lead medical services for Touch Football.¹

Health Professional means a person who is listed as a health professional with the Australian Health Practitioner Regulatory Agency.

Health Professional authorised to administer injections means a Health Professional who is permitted under their registration and scope of practice to perform an injection. This may include Medical Practitioners, pharmacists, dentists, nurses, and paramedics currently registered with the relevant professional board in that field.

Illegal Drug means any substance listed under Schedule 9 and 10 of the current Commonwealth Poisons Standard, as well as any substance listed in [Schedule 1 of the Criminal Code Regulations 2019 \(CT\)](#), as well as those substances howsoever proscribed under relevant state or territory legislation, as amended from time to time.

¹ This Policy does not require TFA to appoint a Chief Medical Officer, however TFA will still be required to fulfil some of the corresponding duties of a Chief Medical Officer as specifically detailed in this Policy if one is not appointed.

Medical Practitioner means a person registered in the medical doctor category by the Australian Health Practitioner Regulation Agency with no restrictions on practice.

Medications include substances that are classified by the Therapeutic Goods Administration (TGA) as a therapeutic good (listed under Schedules 1-8 of the current Commonwealth Poisons Standard), which are ingested, infused, inhaled, injected, inserted, or absorbed by the human body. They may take the form of pills, tablets, capsules, liquids, creams, gels, injectable liquids, sprays, adhesive patches, infusions, inhaled powders, vapours or liquids, pessaries, or suppositories.

Policy means this Improper Use of Drugs and Medicine Policy.

This includes Dietary Supplements and Non-Compliant Supplements³.

Dietary Supplement includes any supplement which is ingested and is compliant with the Australia New Zealand Food Standards Code or the Therapeutic Goods Act.

Non-Compliant Supplement includes any supplement which is not a compliant medicine or food. Foods which are compliant with the Australia New Zealand Food Standards Code are excluded. Medicines which are compliant with the Therapeutic Goods Act are excluded.

Traffic/Trafficking means selling, giving, transporting, sending, delivering or distributing (or Possessing for any such purpose) an Illegal Drug (either physically or by any electronic or other means) by a Relevant Person to any third party; provided, however, this definition shall not include the actions of a "bona fide" Medical Practitioner involving an Illegal Drug used for genuine and legal therapeutic purposes or other acceptable justification.

Use means the utilisation, ingestion, injection, or consumption by any means whatsoever of any Illegal Drug.

² Constructive possession refers to a situation where a Relevant Person has no hands-on custody of Illegal Drugs but has knowledge of the location of Illegal Drugs and the ability to exercise control/ or a degree of control over them. For example, if the Relevant Person have stored drugs stored in a safety deposit box. Thus, under the legal doctrine of constructive possession, the Relevant Person is still considered in possession of the contents of their safety deposit box.
